III · IN THE CLIENT'S WORDS

I'd like it to sit a little lower on the wrist, closer to the hand, so it shows below a blouse sleeve. Rose felt warmer against my skin in the evening light, but I keep going back to yellow, so I'd love to see both side by side. I'll wear it for all three days of my sister's wedding, so lighter would be kinder.

OCCASION

Sister's wedding

Weight-conscious

Chose “Lighter” 40 s after opening weight; opened the weight note twice.

Within budget, with room

Final range ₹1.8–2.1L sits under the stated ₹2–3L budget.

Fixed date, calm lead time

Needed by 12 Dec 2026: about 11 weeks after the consultation.

IV · TALKING POINTS FOR THE CONSULTATION

- ◇ Show rose and yellow side by side on camera, in warm light, before discussing price.
- ◇ Confirm the wrist at 15.5 cm with a tape on the call; explain how the cuff opening flexes.
- ◇ Explain what “lighter” means in hand: a thinner gauge, est. 16–17 g, and how it wears over three days.
- ◇ Walk through the 2 mm diamond at the polished edge: setting, sparkle at arm’s length, effect on range.
- ◇ Note Temple Dawn was worn with the cuff; ask whether it is part of the same wedding look.
